

How to turn off Pop-Up Blockers using Firefox Browser

- 1) Open Firefox. Once Firefox is open type in the site you want to allow Pop-Up Blockers on and navigate to that site. For this example we'll use Cengage.com.

- 2) Once you are on the site click on the small shield button located on the search bar to the left of the website name.

3) Scroll down and select “Turn off Blocking for this Site.” Once you click that button it should turn off the pop-up blocker.
