

How to turn off Pop-Up Blockers using Google Chrome

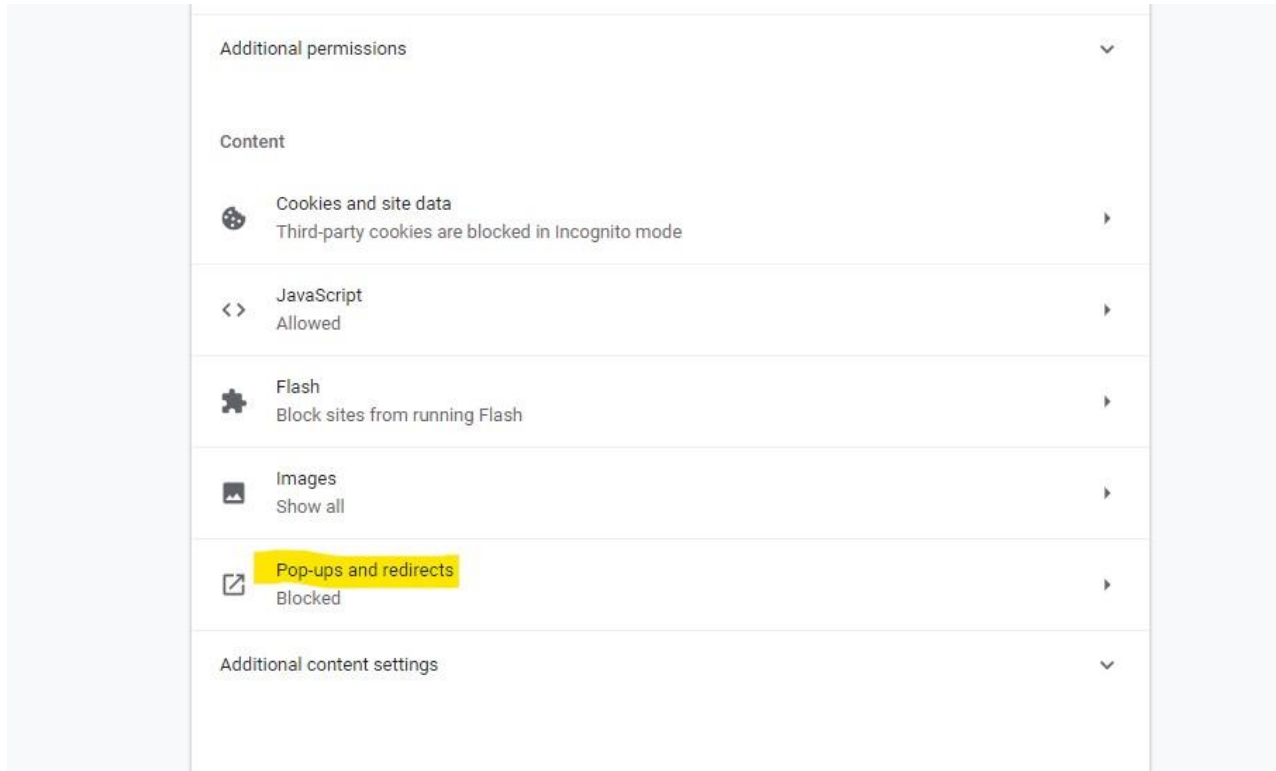

- 1) Open up Google Chrome. In the upper right hand side of the page there is a vertical ellipsis. Click the ellipsis and scroll down to select Settings. Click on Settings.

- 2) Scroll down the page and select "Site Settings".

3) Scroll down the page and find “Pop-Ups and Redirects”.

If it says “Blocked”, click on the arrow and proceed to the next step. If it says “Allowed” you are good to go.

4) Find the area that says “Blocked” and click the radio button to the right so it says “Allowed”
